

Crawford County Educator-in-the-Workplace Act 48 Program

ACTION PLAN

School-to-Work Sustainability

The Action Plan component has been added to encourage educators to think about school-to-work as a philosophy, not “just another program”. The Action Plan may also serve as a guide for the long range “school-to-work” planning; a personal plan for how you can implement school-to-work in your curriculum. The STW philosophy is not something new, however we have just begun to significantly act on the philosophy. Many have been invited to participate in the STW initiative. Those involved with STW have learned levels of participation vary and it doesn’t work exactly the same for everyone. Therefore, individual action plan development is encouraged. Please consider the following questions, briefly state your plan, as it would apply to your position and submit with your journal and lesson plan. Please keep one copy for your personal file.

ACTION PLAN GOALS FOR: _____

SCHOOL DISTRICT: _____

How will I sustain the School-to-Work initiative in my classroom?

What resources/support will I need?

How will I know it works?
